## **TECHNICAL INFORMATION SHEET**

# **Coiled Metal Batten Strip**

**TIS #1201** 

12.6.2011

**ITEM NUMBER: W56RAC3052** 

#### **Description:**

Coiled Metal Batten Strip is specifically designed to be used for anchoring Firestone membranes and flashing details as specified in Firestone Specifications and Details. Coiled Metal Batten Strip is packaged in a weather-resistant cardboard dispensing package which contains 220 ft (67 m) of batten strip. Using Coiled Metal Batten Strips in lieu of conventional pre-cut strips reduces labor and storage space. Coiled Metal Batten Strip has 3" (76.2 mm) o.c. pre-punched holes for greater flexibility in attaching to steel decks.

#### **Method of Application:**

1. Attach batten strips to the roof substrate or penetration using the appropriate Firestone fastener. Do not overdrive or underdrive fasteners. Start at one end of the batten strip and fasten towards the other to reduce bowing between fasteners.

#### Storage:

• Store in original unopened containers protected from the weather.

### **Precautions:**

• When cutting battens, round ends and remove burrs and sharp edges with a file.

#### **Compliance:**

Post Consumer Recycled Content: 8%
Pre Consumer Recycled Content: 17%
Manufacturing Location: Cleveland, OH

Packaging:		
Coil	220'	
Coils per Pallet	52	

Physical Properties:	Minimum Performance
Material Corrosion Resistance Length Width Thickness Holes	Galvalume® AZ 55 Meets FM No. 4470 criteria 220' (67 m) per coil 1.0" (25.4 mm) 0.0448"/0.0508"(1.13 mm/1.29 mm)
Weight	0.344" (8.74 mm) diameter, at 3" (76.2 mm) o.c. (Accommodates Firestone All-Purpose, Heavy-Duty, Heavy-Duty Plus and Concrete Drive Fasteners) 32 lb (14.5 kg) per coil
